People in 1.0 m of water			1,109,000*	
* Number is rounded to the nearest 1000				
Map shows population density needing evacuation				
Table below shows the weekly minium needs for all evacuated people				
Needs per week			Total	
Rice [kg]			3,105,200	
Drinking Water [l]			19,407,500	
Clean Water [l]			116,445,000	
Family Kits			221,800	
Toilets			55,450	
Action Checklist:				
How will warnings be disseminated?				
How will we reach stranded people?				
Do we have enough relief items?				
If yes, where are they located and how will we distribute them?				
If no, where can we obtain additional relief items from and how will we transport them to here?				
Notes				
Total population: 12,717,000				
People need evacuation if flood levels exceed 1.0 m				
Minimum needs are defined in BNPB regulation 7/2008				
All values are rounded up to the nearest integer in order to avoid representing human lives as fractionals.
